LIMITED WARRANTY

Bio Cart HEPA 10

Air-Care warrants this product to be free from defects in materials and workmanship to the original purchaser for a period of Five (5) years from the date of purchase. Components listed below are excluded from this Five-year period and are covered for periods described below:

PART	COVERAGE
All wiring, control panels and electrical components	1 Year
Bellows	1 Year
Blower Motor	1 Year
Cord Reels	90 Days
Ladder	1 Year
LED Lighting	1 Year
Lift Motor and Assembly	1 Year
Wheels and Filters	No Warranty

Warranty covers both parts and labor (labor is to be performed at Air-Care's facility located at 3868 E. Post Road; Las Vegas, Nevada).

Warranty is extended to the original purchaser and is **NOT** transferrable.

This warranty does not extend to any damage to a product caused by or attributable to freight damage, abuse, misuse, improper or abnormal usage. Warranty is also void if the product has been modified or altered in any way.

The purchaser is responsible for the cost of shipping the equipment to Air-Care's facility for evaluation. If found to be defective and covered by the terms of this warranty, Air-Care will pay FedEx ground shipping charges on the repaired or replaced item back to the purchaser's location. Any additional expedited service charges for quicker shipping shall be the responsibility of the purchaser. If the product or component is not found to be a warranty issue, the purchaser will be responsible for return shipping charges. No product or component can be returned without first receiving an RMA number (return merchandise authorization), from the Air-Care Technical Support Department.

Air-Care is not responsible or liable for indirect, special, or consequential damages arising out of or in connection with the use or performance of the product; damages with respect to any economic loss, loss of property, loss of revenues or profits, loss of use, or other incidental or consequential damages of whatsoever nature.

The warranty extended hereunder is in lieu of any and all other warranties, and any implied warranties of any type.

This warranty gives you specific rights. These rights and others vary from state to state.

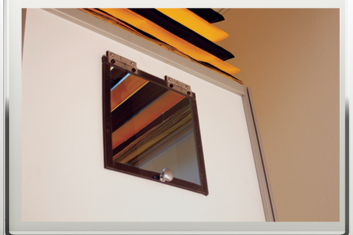
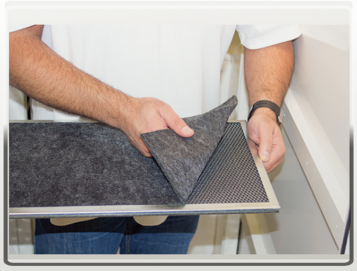
Bio Cart™ HEPA - 10



• Convenient hinged pass thru ensures controlled access.



• Permanent and washable, electrostatic pre-filter and odor adsorbing carbon pad in air scrubber.

• HEPA replacement via exterior door. Interlock on HEPA door to stop blower motor and turn off UVC/UVGI lights when opened.

• Swivel casters on all 4 corners allow one tech to maneuver through tight areas or long halls.

• Built In, 3 stage extension ladder that can be transported through doors and elevators without being removed.

• The expanding and collapsing bellows are operated by a power lift and maintain negative pressure in the work area at all heights without "billowing" into the cart when air scrubber is turned on.

Stands 6.5 feet when bellows are collapsed and can reach a max height of 13 feet with the bellows fully extended.

Specifications are subject to change at anytime without notice.

Air-Care division of DPL Enterprises announced a dust containment cart with unique benefits for maintenance technicians working in ceiling spaces of sensitive areas of healthcare and clean room operations. The Bio Cart UVC has significant improvements in containment strategy and convenience of operation, according to Air-Care President, Richard Papaleo, who is proud that this is the only containment cart with a power lift and folding bellows to mate with the ceiling in an effortless manner. Papaleo continued that the addition of a 3 segment ladder that can remain in the cart during transport, saves time on the job site and the exclusive UVGI lamps in the HEPA filtered air scrubber provide additional protection to patients and personnel in sensitive areas of hospitals and other medical facilities that often require containment when working above the ceiling tile.

“We have found other carts lacking in features and convenience of operation,” said Wayne Tracy, Field Operations Manager. “Not only is the Bio Cart easily moved through doors and elevators, but its 3 section extension ladder that reaches 13 foot ceilings and collapses down to 6 ft to store inside the cart, saves a trip to the engineering department”, Tracy added. The Bio Cart is designed with input from the “wish lists” of technicians who rather spend time on maintenance tasks, not setting up required containment units.

“The Bio Cart has contractors anxious to place orders”, said Mary Dziak, marketing manager of Air-Care. “They love the professional look, easy set up and features just not available on other containment carts on the market today”.
